Dear Love,

Yes, am bad at loving. I really never thought I would treat "you" this bad, because all my life all I ever wanted is you. And now that I got you I give you all the pain and make you feel like you are stuck with me and not let you be like a free bird. Now you looking at on FaceTime, and am here writing this with my blurred eyes.

All I know is I wanted you and I got you on my own. All of them whom I know, my friends , your friends everyone I thought wanted us to be together but no I was wrong. Neither you want me now.

All of a sudden I feel like dancing with a mosquito. I want no regrets. You tell me that your love is decreasing but for some reason I feel like I love me more everyone day. Maybe coz I'm crazily in love with you. This is real.

I wanna be your everything, your friend, best friend, boyfriend, enemy, husband, mom, dad, son, brother everything lo. And im trying to be even though you have everyone, im trying to replace everyone with me. Now look at me, im making you cry everyday. Will you stop crying if I go? No. I know you'll cry more. How do I not make you cry?

I dont know what am in love with. I will even fight the god if the gods are trying to take you away from me. I wont even think for a second. But what if you dont need you? Whom do I blame? I cant blame. Do I blame me? I dont knowwww.

Lo I know only to love you, I dont even know how to love others, I cant unloved you. You are the last person I wanna love. You mean a lot to me I really cant leave without you. Its better if I go now before you I kill all the love that is left in you. I dont want you to regret our love. Ill be proud of it even if I didnt carry it well, im sorry. Maybe I was the wrong guy for you. I never took care of you properly. I only know this rude kind of love. My kind of love hurts you lo. I really wanna talk to you, I call you I hear your voice, I really dont know how to let you go. I know im giving you pain but I cant stop it. I know talking to at night isn't gonna go good but I dont know I couldn't stop. I need you even if I know I am giving you pain. I know it isn't love but im sorry I dont know how to let you go. I dont wanna let you go. Man, its 1AM and im seeing you sleep. I wish I could be there.

Tomorrow I feel like going, just go and never come back, I dont want you to cry for me one more time. I cant be the reason for your sadness. Ill be a part of your sadness not a reason for it. Ill be gone but will be close to your heart, ask for me whole heartedly ill be there by your side.

Me still being with you if its gonna hurt you more then it will lead to unloveing me I cant stand to see it. I cant see you unlove me. It hurts to be with you when its hurting you. Your internals are near I feel like ill make you fail. Remember, I was not in relationship, when you had exam I used to be on ft and make you study? Will I be able to me the same guy again?

If you decide to not see me anymore, I hope not, surely ill miss you a lot. I dont think ill be able to love anyone else. Im sure I wont be able to see anyone like I saw you. Maybe be ill never have sex. Its fine if isn't not with you I dont wanna have it with anyone else.

I am asking you not to breakup with me, if you need a break, I think I can let you go. Just know, I wont be gone anywhere when you feel like being with me. When you actually need me, ill be there with my arms open to hug you again. Lo I really miss you and I dont wanna leave you. I cant let you goooooo. I dont want you to feel stuck with me. If you need a break from me wont stop you.

Yours sincerely,

Pushkar K U
