# SHOULD YOU FORGIVE ME?

Why We Belong Together.

# ACKNOWLEDGING MY MISTAKES

- I didn't value you much in our relationship.
- I made you feel unloved.
- I had taken you for granted.
- I failed to understand when you needed me.
- I did not change how you wanted your boyfriend to be.
- I had always put my feelings first.
- I doubted our relationship.
- I felt insecure for small things.
- I am not mature enough for this relationship.

# GOOD TIMES

- The way you scold me, every time I do a mistake.
- Hugging and clicking photos.
- Making you feel jealous.
- Me convincing you to go to TEALOGY
- All facetious calls in the morning, afternoon, evening and night.
- Your smile.
- Your big nose.
- You biting and slapping, it is painful but I like it.

# WHY YOU?

- You are my someone who saves you from being alone.
- You are my someone who does everything for you.
- You do everything to make me smile. You are the reason for my smile.
- Your innocence, I know I have been teaching you a lot of other stuff, but that's the best part.
- You are someone who genuinely tells me what's right and what's wrong.
- You are someone who I can see my wife in. See the mother for my kids.
- You are the strength, and you are sometimes the reason for my bravery.
- There's no one else like you.

# MY CHANGES

- I know you will not believe in this. But after seeing this photo I think you will.
- I have successfully controlled my anger and am now in control of myself.
- I've learned how to talk and treat women with respect.
- I have been able to make mature decisions not completely.
- Be able to understand you better.

# OUR FUTURE

- Promise to communicate properly and have a healthy conversation.
- Look you in the eye and take care of you.
- Promise to not never let you down. Never.
- To not see a single drop of water from your eye.
- To take care of you like no one ever did.
- I will have always have your back.

# CLOSING THOUGHTS

You dont have to be afraid of me, love is there. Just hug and everything's gonna be alright. I know sometimes am slow to tell you. All my mistakes are slowing killing me. Im trying to make everything better slowly. I love you till the end of us. Im coming to meet you, to tell you im sorry. You dont know how lovely you are, tell me your worries and lets go to the start. Calling and telling all our secrets. No body told it was gonna be easy but no one said its gonna be this hard. Let me take you to the start. Tell me you love me come back and hug me. Ill rush to the start. I felt pain in very minute of the day. I have found you and dont wanna lose you. I cant give you anymore pain. Im getting tired when are letting me sleep in your arms. Can we just go somewhere? Where have you gone? Im searching you everywhere, Im not finding and im getting tired. Is this gonna be the end of everthing so im not gonna stop finding you.

I know I had It all with me. Coz even when there was no sun you were my light. No that you gone there's only darkness,, so don't go. Dont leave me blind folded. You were my light. I cant wait to see your face. Ill give everything it takes now.

**“WHY LET GO OF SOMEONE YOU LOVE?”**
